INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
New Mexico Military Institute Foundation, Inc.
and
Mr. Tim Keller
New Mexico State Auditor:

Report on the Financial Statements

We have audited the accompanying financial statements of the New Mexico Military Institute Foundation, Inc. (Foundation) (a nonprofit organization and component unit of the New Mexico Military Institute), which comprise the statements of financial position as of June 30, 2016 and 2015, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the New Mexico Military Institute Foundation, Inc. as of June 30, 2016 and 2015, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the Foundation's financial statements as a whole. The Supplementary Information identified in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Schedule of Vendor Information required by 2.2.2.10(A)(2)(g) NMAC has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2016, on our consideration of New Mexico Military Institute Foundation, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contract, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering New Mexico Military Institute Foundation, Inc.'s internal control over financial reporting and compliance.

NEW MEXICO MILITARY INSTITUTE FOUNDATION, INC.
(A COMPONENT OF UNIT OF NEW MEXICO MILITARY INSTITUTE)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 1 – ORGANIZATION

The New Mexico Military Institute Foundation, Inc. (Foundation) is a not-for-profit corporation, which was incorporated in the State of New Mexico on October 9, 1945. The Foundation receives support from contributions, earnings on investments, and rental of real estate.

The purpose of the Foundation is to create, maintain and administer assets for the benefit of the New Mexico Military Institute (NMMI), a state educational institution, located in Roswell, New Mexico. The earnings from these assets are to be used for research, scientific and literacy purposes; for increasing the buildings, equipment and other facilities of the Institute; to provide for scholarships for Institute cadets and to promote general growth, welfare and maintenance of the Institute. The Foundation is considered a component unit of the Institute in accordance with government auditing standards generally accepted in the United States of America and these financial statements include all activities over which the Foundation has responsibility.

The Foundation receives, and is dependent on, contributions and on rental income from ground leases and commercial buildings located in Chaves County, New Mexico. For the years ended June 30, 2016 and 2015, the Foundation received \$708,565 and \$1,170,806, respectively, in restricted contributions. For the years ended June 30, 2016 and 2015, the Foundation received \$376,903 and \$368,886, respectively, in rental income.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Basis of Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities. The Foundation is required to report information regarding its financial position and activities according to the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Foundation and changes therein are classified and reported as follows.

- *Unrestricted net assets* – net assets that are not subject to donor-imposed restrictions. Unrestricted net assets may be designated for specific purposes, such as quasi-endowments, by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Unless otherwise designated, unrestricted net assets are used for the support of NMMI programs.
- *Temporarily restricted net assets* – net assets subject to donor-imposed restrictions that may or will be met either by actions of the Foundation and/or the passage of time.
- *Permanently restricted net assets* – net assets subject to donor-imposed restrictions that must be maintained permanently by the Foundation.

NEW MEXICO MILITARY INSTITUTE FOUNDATION, INC.
(A COMPONENT OF UNIT OF NEW MEXICO MILITARY INSTITUTE)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Temporarily restricted net assets are those whose use by the Foundation have been limited by donors to a specific time period or purpose. When a donor restriction expires, either when the stipulated time restriction ends or the purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as restricted contributions and subsequently released from restriction in the accompanying financial statements.

Restricted and Unrestricted Revenue

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Unconditional promises and other gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. Conditional promises to give are not recognized until they become unconditional; that is, when the conditions on which they depend are substantially met.

Expense Allocation

Directly identifiable expenses of the Foundation's programs are charged to program expenses. Supporting services expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Foundation.

Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Foundation considers all cash on hand, demand deposits, and unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Investments

The Foundation carries investments in marketable securities with readily determinable fair values and all investments in debt and equity securities at their fair value in the Statement of Financial Position. Investment income or loss (including unrealized gains and losses on investments, interest, and dividends) is included in the Statement of Activities as increases or decreases in unrestricted net assets unless the income or loss is restricted by donor or law.

NEW MEXICO MILITARY INSTITUTE FOUNDATION, INC.
(A COMPONENT OF UNIT OF NEW MEXICO MILITARY INSTITUTE)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Additionally, for the years ended June 30, 2016 and 2015, the Foundation had non-cash investing activities relating to the contributions of stock in the amount of \$5,982 and \$6,747 respectively. For the years ended June 30, 2016 and 2015, the Foundation did not pay any income tax or interest expense.

Fair Value of Assets and Liabilities The Foundation has adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 820 (ASC 820), *Fair Value Measurements*. ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
Level 3	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Investment Pools

The Foundation maintains master investment accounts for its donor-restricted and board-designated endowments. Realized and unrealized gains and losses from securities in the master investment accounts are allocated monthly to the individual endowments based on the relationship of the market value of each endowment to the total market value of the master investment accounts, as adjusted for additions to or deductions from those accounts.

Income Tax Status

The Foundation is exempt from federal income tax under Section 501(c) (3) of the Internal Revenue Code. In addition, the Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2). Accordingly, no provision for income taxes has been provided in the financial statements. As of year-end, the Foundation has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Foundation's Form 990, Return of Organization Exempt from Income Taxes, is generally subject to examination by the Internal Revenue Service for three years after the date filed.

**NEW MEXICO MILITARY INSTITUTE FOUNDATION, INC.
(A COMPONENT OF UNIT OF NEW MEXICO MILITARY INSTITUTE)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Contributions and Pledges

The Foundation recognizes contributions as revenue when they are received or unconditionally pledged. The Foundation reports gifts of cash and other asset as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from donor restrictions.

Unconditional promises to give are reported at net realizable value if at the time the promise is made payment is expected to be received in one year or less. Unconditional promises that are expected to be collected in more than one year are reported at fair value initially and in subsequent periods. Management believes that the use of fair value reduces the cost of measuring unconditional promises to give in periods subsequent to their receipt and provides equal or better information to users of its financial statements than if those promises were measured using present value techniques. When estimating the fair value of unconditional promises to give, management considers the relationship with the donor, the donor's past history of making timely payments, and the donor's overall creditworthiness which represent level 3 inputs.

Donated Services and Facilities

Donated services are recognized in the financial statements as contributions if the services:

- Create or enhance nonfinancial assets or
- Require specialized skills, are provided by individuals possessing those skills, and would otherwise be purchased if not donated.

Office space donated by the New Mexico Military Institute (including building maintenance, utilities, and janitorial services) is valued and described in Note 9.

Life Insurance

The Foundation is the owner and beneficiary of numerous life insurance policies gifted to it by donors. The policies are presented at their aggregate cash value at June 30, 2016 and 2015. Increases in cash value during the year are recognized as earned revenue.

Furniture and Equipment

All acquisitions of furniture and equipment with a cost in excess of \$1,000 and all expenses for repairs, maintenance, renewals, and betterments that materially prolong the useful lives of assets are capitalized. Furniture and equipment are carried at cost or, if donated, at the approximate fair market value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets, which is three to ten years for all assets.

Budget

The operating budget of the Foundation is prepared for unrestricted activities and is subject to the approval of the Board of Trustees, but is not legally adopted or subject to any other proceedings. The adopted budget of the Foundation is prepared on a basis consistent with accounting principles generally accepted in the United States of America except expenses from net assets released from restriction are not included in the budget; therefore, the related expenses are excluded from the actual expenses reported on the budget comparison.

Subsequent Events

Subsequent events have been evaluated through November 7, 2015, which is the date the financial statements were available to be issued.

NOTE 3 – CASH AND INVESTMENTS

At year end, the Foundation's deposits were \$2,164,813, and the bank balance was \$2,205,582.

Fair Value Measurements. ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows.

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the assets or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

NOTE 3 – CASH AND INVESTMENTS (Cont'd)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level or any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Foundation's Investments are carried at fair value. The estimated fair value of Investments is based on quoted market prices, except for certain alternative investments for which quoted market prices are not available. The estimated fair value of these alternative investments is based on the most recent valuations provided by the external investment managers.

The Foundation believes the carrying amount of these financial instruments is a reasonable estimate of the fair value. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.

The Foundation places no limit on the amount the Foundation may invest in any one issuer. The investments as a percentage of the Foundation's total investments are noted in the tables below. Investments at June 30, 2016 and 2015 were comprised of the following.

The investments held that are valued at Net Asset Valuations had the following investment strategies per the Foundation's investment committee:

Hedge fund investments, including equity long/short are defined as private investment vehicles that utilize non-traditional investing techniques in pursuit of superior risk-adjusted returns. These are specialist investment managers with various strategies across the spectrum of event driven, opportunistic, or value driven styles. The funds may employ leverage and may employ short position in order to implement their strategy. The Fund may utilize direct investment into individual hedge funds or a fund of funds with a minimum of five different core hedge fund strategies.

Hedge funds are unregulated by the SEC, therefore, the Committee must rely on detailed third party preliminary and ongoing due diligence. Through Monticello Associates, the Committee ensures that due diligence will take place. Each fund is evaluated against peer groups and passive indices that best compare the investment manager's value added over those bench marks. Value added is defined as the fund's absolute performance, relative performance, standard deviation, and its correlation value to the total Fund portfolio.

NOTE 4 – ENDOWMENTS

The Foundation's endowment consists of approximately 140 individual funds established for a variety of purposes. As required by generally accepted accounting principles (GAAP), net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary.

NOTE 4 – ENDOWMENTS (Cont'd)

As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expense by the Institute in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the organization
- The investment policies of the organization

Investment Return Objectives, Risk Parameters, and Strategies

The Foundation has adopted investment and spending policies, approved by the Board, for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment funds while also maintaining the purchasing power of those endowment assets over the long-term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of 5%, while growing the funds if possible. Therefore, the Foundation expects its endowment assets, over time, to produce an average rate of return of approximately 8% annually. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to not expose the fund to unacceptable levels of risk.

Spending Policy

The Foundation has a policy of appropriating for distribution each year 5% of its endowment fund's average fair value of the prior 12 quarters through the calendar year-end preceding the fiscal year in which the distribution is planned. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor-restrictions, and the possible effects of inflation. The Foundation expects the current spending policy to allow its endowment funds to grow at a nominal average rate of 4% annually.

NOTE 5 – PLEDGES RECEIVABLE

Pledges receivable are unconditional and due in varying amounts and periods. Unconditional pledges receivable at year end totaled \$494,971, excluding a present value discount of \$103,360 measured at a discount rate approximately 4 percent. When estimating the fair value of unconditional promises to give, management considers the relationship with the donor, the donor's past history of making timely payments, and the donor's overall creditworthiness which represent level 3 inputs.

	<u>2016</u>	<u>2015</u>
Receivable in less than one year	\$ 49,341	47,839
Receivable in one to five years	269,255	260,488
Receivable in more than five years	176,375	234,583

NOTE 6 – LAND AND BUILDINGS HELD FOR INVESTMENTS

Land held for investment consists of various developed and undeveloped lots, primarily in the area of Roswell, New Mexico. All land held for investment is reported at market value using recent comparative sales, inquiries of appraisers, and actual appraisals to estimate the fair market value which represent level 3 inputs. Land is sold at the direction of the Board of Trustees.

NOTE 7 – ANNUITY OBLIGATIONS

The principal amount of life gifts, charitable remainder unitrusts and accumulated earnings, which are temporarily restricted, are included in investments in the Statements of Financial Position and will be reflected as support in the Statements of Activities when the term of the life income gifts have been met and the income is no longer restricted. At June 30, 2016 and 2015 the Ralph R. Connor charitable remainder unitrusts was recorded as annuity obligations in the amount of \$362,139 and \$394,518, respectively.

NOTE 8 – LEASE AGREEMENTS

Lease agreements between the Foundation and tenants of its property are for terms up to 60 years and generally included provisions for escalation based upon the Consumer Price Index, as well as, renewal options at the end of the primary term.

Minimum future rental income on leases as of year end:
